

DÜMMEN  
ORANGE®

# Beauty and Elegance

## *For every Wedding*

What would a wedding be without fresh flowers? Wedding flowers are one of the most stand out elements to your special day, providing elegance and beauty. There are many variations and types of flowers to choose from, and Calla is one of the favourites. Shiny and modern looking, the calla lily's trumpet blossom and stem would make a bold statement on everyone's special day. For corsage, wedding bouquet or arrangements on the table or vehicle, Calla is easy to work with and offers the right atmosphere on the perfect wedding day.

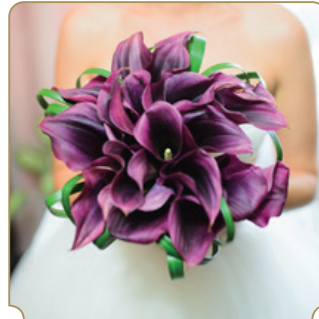

The ivory or white pairs suit well in a summer garden wedding, while the purple or pink would work great for an art deco or modern affair.
